

Application form Master of Astrophysics

Important Notes ([Link](#)):

- The application for the Master's thesis must be submitted to the Examination Office **four weeks** before the requested start date of the thesis.
 - The master thesis will be registered on basis (pre-modules, date of start and submission date as well as your supervisor) by Examination Office.
 - For objective reasons, the work can be extended for six weeks. You can find a corresponding application [here](#).
 - If you fall ill, you must immediately - but no later than 14 days after it is issued - submit a medical certificate - preferably digitally - to the Examination Office. The submission date will be adjusted accordingly; certificates submitted later than 14 days after it was issued, can no longer be considered.
 - The work must be submitted to the Examination Office by the deadline. Either (1) send the master thesis as a PDF by email to: pa@physik.uni-bonn.de, or (2) hand in three printed copies in person or send them by postal service. In this case, the date of the postmark counts.
 - If the file is too large to be sent by e-mail, you can request a link for uploading from the Examination Office in good time. Own links, on Sciebo e.g., will not be accepted.
-

I have already successfully completed a master's degree at this faculty or will complete another master's degree at this faculty

☐ Yes - Study program: _____

☐ No

To be filled in by the candidate

(Name) (First name) (Matriculation-No.) (Date)
