Signature Supervisor

Signature candidate

^(a) final start and end date will be approved by the examination office.
Extension is possible on duly motivated request 4 weeks prior to the end date (c.f. §17, Abs.7 MPO-Astro).

I have already successfully completed a master's degree at this faculty or will complete another master's degree at this faculty

Yes - Study program: _____

No

Filled in by Examination Office

Date: _____

Start date

End date

approved by Head of Examination Board

Important notes (please read carefully):

- Please read the information sheet for the master thesis on our homepage.
- The master thesis will be registered on basis (pre-modules, date of start and submission date as well as your supervisor) by Examination Office.
- For factual reasons, the work can be extended for six weeks. You can find a corresponding application on the homepage - Rules for the Master study.
- If you fall ill, you must immediately submit a medical certificate - preferably digitally - to the Examination Office, but no later than 14 days after it is issued. The submission date will be adjusted accordingly; certificates submitted later can no longer be considered.
- The work must be submitted to the Examination Office by the deadline, either hand in three printed copies in person or send them by post. It is also possible to submit it digitally - to do this, send the master thesis as a PDF by email to: pa@physik.uni-bonn.de
- if necessary (e.g. pdf too big for email attachment), upon request PRIOR to the submission deadline an upload link will be provided by the examination office. Own links, on Sciebo e.g., will not be accepted.
